2 Story Episodes & Depth Layers

Cases are broken down into sequential episodes (dynamic count, typically 8 episodes). Each episode requires three synchronized layers:

Layer A: General Story Narrative

Factual, engaging storytelling for general readers. Must include **Episode Title, Kicker** (e.g., *EPISODE 01 · THE PREMISE*), and 1–2 paragraphs describing the facts and timeline.

Layer B: Student Depth (Academic & Exam Focus)

Legal Analysis: 1 concise paragraph highlighting doctrinal significance.

Ratio Decidendi: Clear binding legal rule.

Exam Angle: Relevance for CLAT-PG, Judiciary Mains, and AIBE.

Layer C: Advocate Depth (Clean Trial Propositions)

TRIAL PROPOSITION: Exactly **one clean sentence** naming the legal point that this episode's facts or reasoning illustrate.

Example: TRIAL PROPOSITION: Section 66A of the IT Act creates a chilling effect on legitimate free speech and is void for vagueness.

Paragraph Pinpoints: Precise paragraph numbers (e.g., ¶8, ¶104) quoting the specific rule.
